**Quiz: Layers in Network Models**

1. **Let's test your knowledge of the five-layer networking model presented in this course.**

   **The quiz consists of 2 parts:**
   1. **The first part will test your knowledge of the Network Layers. To do this, drag a layer from the "Available Items" column and drop it in the correct order in the "Network Layers" column.**

   2. **In the second part, match samples of the layers to each Networking Layer. To do this, choose an item from the "Available Items" column and match it with the correct layer in the "Network Layers" column.**
   **The Five-Layer Networking Model**

   **Exercise Objectives**

Drag and drop a networking layer into the correct order on the right-hand side of the screen.
